working solutions

Working Solutions

That's our motto and our commitment to you! As a client of caliberIT, we will work with you and your staff to provide efficient and effective solutions to the challenges your business faces.

To review the solutions we offer or to discuss your specific needs please contact us.

Partners/Alliances

American Power Conversion (APC) provides protection against leading causes of downtime, data loss, and hardware damage: power problems and temperature. As a global leader in power availability solutions, APC sets the standard in its industry for quality, innovation, and support. Its comprehensive AC and DC power solutions, designed for both home and corporate environments, improve the manageability, availability, and performance of sensitive electronic, network, communications, and industrial equipment of all sizes.

APC's line includes surge suppressors, uninterruptible power supplies (UPS), power conditioning equipment, and related software for computer and computer-related equipment. A UPS provides surge suppression, line filtering, and instantaneous battery backup power to protect mission-critical applications in the event of any power disturbance.
